

**Home Medications**

Intake Counselors, Nurses, Prescribers, and Therapists have access to document patient's home medications. These medications, once reconciled/ordered will appear on the Aftercare Plan report.

**Process**

1. In myAvatar, click on Order Console

My Views: HomeviewCLINICIAN **Order Console** eMAR

2. Select patient from client list

Client Staff Site

3. Click on Home Medications Tab across top of form

Orders This Episode **Home Medications**  
 Status: Active Date Range: All  
 (0) (0)

4. Enter in medication in New Order field in the middle of the screen by using at least the first 3-4 letters of the name (**You will see all orders with those letter combinations**):

D/C Reorder Modify Make Rx Edit Validate Reject Compliance Reprint  
 New Order:   Client Reported  
 New Order: zofran  Client Reported  
 Results  
 (\*\* Non-Formulary \*\*) Zofran 4 MG, Tablet, Oral (1 Tablet Every 4 Hours As Needed)

5. Select medication and then click **Client Reported**. Once Client Reported is selected, screen fields will become not mandatory.
6. Verify or edit information as appropriate
