

Printed eMAR's

Printed copies of medication administration records can be done in myAvatar. Utilize this report to review the medications your patient has been ordered and amount administered. This can also be utilized when a copy of a patient's eMAR is needed.

Process

1. Go to forms and look up Client eMAR hard copy report

2. Enter Client name and Episode. Check pharmacy order types. Utilize calendars to right for the range of dates you would like to see information. Active orders displays all medications ordered. Administration Event displays medications administered. You can utilize the calendars to open the window for dates you desire to review.

3. Process Report.
